Hi Lisa welcome back. Russ, Noah and I have moved forward on coordinating w/ all the R8 points of contact after NRC added the two topics outside of NEPA and also wanting to keep this mtg. focused - also called NRC. Angelique has provided input and would come if we need her Lots of e-mails. Can I call you to catch up?

Hi All,

Finally after numerous attempts, I was able to log on and check email. The person in our region that knows subpart W is Angelique Diaz. The UIC project lead for the Class III permit (Dewey Burdock ISR project) is Valois Shea and Doug Mintor is currently her supervisor.

I would suggest that we meet first with NRC folks and then have the UIC (Valois and Doug and or Sadie), Tribal, and Air (Angelique and or her boss) come half hour to 45 minutes into meeting.

I thought NRC was going to develop the final agenda but maybe we are suppose do to that. Nat do you want to clarify? Or I can develop a quick agenda when I get to work on Thursday before the meeting.

Nat, hoping you follow up with Valois and Doug, someone from Tribal or Env. Justice program, and Angelique? If not, maybe Vanessa can do this.

I am not sure why Ayn S was on the email below. I don't think she is involved in any of the Dewey-Burdock work with NRC.

-Lisa

That probably adds to the list of EPA R8 internal invitees – i.e. Douglas Minter's staff in OPRA for the UIC Class III topic, Alfreda Mitre and Corbin Darling for the EJ and Tribes topic – right?

Hi Jill,

I will forward the two names to the security guest list. Please let me know if there are more people to add in the list or changes.

Thank you,

Noah(Nawodit Gautam)

Hello Noah and Nat:

Lisa asked that I let you know the names of the attendees from NRC that will be attending the upcoming Federal to Federal meeting with EPA/NRC.

They are:

- Ray Lorson, Acting Deputy Director, Office of Federal and State Materials and Environmental Management Programs
- Jill Caverly, Project Manager, Environmental Review Branch.

Also, a couple of items to add to the agenda:

- Current EPA guidance/policy status (Subpart W guidance development and Policy on Environmental Justice for Federally Recognized Tribes)
- Status of Class III UIC permit review

Looking forward to seeing all of you next week.

Best,

Jill

Subject: NRC/EPA meeting August 14, 2014

Jill,

I have received some input from a few people and have the following suggestions to include in the August meeting agenda:

- Opening remarks/overview – EPA Martin Hestmark, Assistant Regional Administrator, Ecosystem Protection and Remediation & _____, NRC
- Current and future potential projects – what, where, and when (NRC)
- Expectations and helpful information related to EPA input in EIS process and review (NRC and EPA)
- NRC's process for working with other agencies on EIS and license issues (e.g. Sheep Mountain and BLM EIS for mill)

- Status of Blue Castle Nuclear Power Plant, Utah, as related EIS process

At least a week before the meeting, please provide a list of the names of the people who will be attending. This will facilitate the processing through our security when you come into the building. Since I will be out of the office, please send that information to "Noah" Nawodit at Gautam.Nawodit@epa.gov and he will make sure the information gets to the guard desk.

Current list of attendees for EPA are:

Martin Hestmark, the Assistant Regional Administrator for Ecosystem Protection and Remediation
Russ Leclerc, Acting Director of NEPA Program (new to the NEPA program starting next week)
Phil Strobel, Deputy Director of NEPA program
Vanessa Hinkle, NEPA lead reviewer
Nat Miullo, NEPA lead reviewer

I doubt Martin will participate in the entire meeting but will be there to provide his perspective on EPA/NRC relationship.

Lastly, if you have any questions about this meeting or need to make an adjustments in the meeting time, you can contact Nat Miullo at Miullo.Nat@epa.gov. Looking forward to meeting you on August 14th.
